A NEW DIMENSION OF FREEDOM **MOVE YOUR LIMITS!**

MOV:E is the perfect solution for anybody wanting to be released from the restrictions of fixed power supplies and restrictive extension cables.

The XXL energy store from BACHMANN provides up to 18 hours of electricity for operating common office devices – from laptops through to digital flip charts. MOV:E promotes mobile team working regardless of the available building infrastructure. Ideal for all areas of modern working life – lounges, agile project rooms, huddle rooms and collaboration areas. This is because MOV:E can power up to 4 laptops at the same time, and even power a mobile flip chart with electricity for up to 2 hours. Perfect for any spontaneous meeting situations. These features mean that team working situations can be relocated easily to a more convenient personal location and new, collaborative moments can be created. Regardless of when, where, or how – MOV:E is the perfect power supply for all occasions.

A 55%

increase in performance is reported by companies that offer their employees a flexible working environment.
