

EHMANN

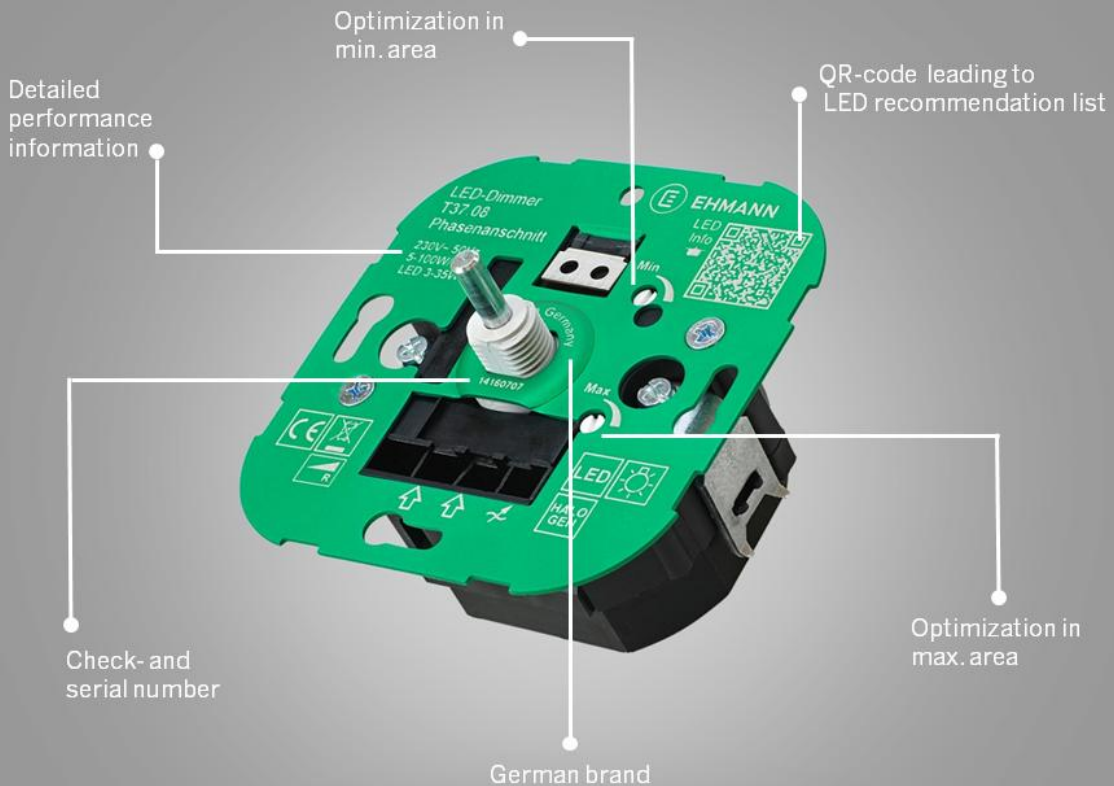

LED flush-mounted dimmers

Green works!

Electronic LED leading-edge dimmer

T37.08

- > LED 3-35 W | 5-100 W/VA
- > Microprocessor-controlled
- > SILENT TECHNOLOGY – Operates utterly quiet
- > Optimization possible in min. and max. area
- > Multi-LED dimmer

LED leading-edge dimmer

T39.07

- > LED 3-35 W | 7-110 W/VA
- > Optimization possible in min. area
- > Especially suitable for retrofit LEDs

T39.08

- > LED 3-85 W | 20-250 W/VA
- > Optimization possible in min. area
- > Especially suitable for retrofit LEDs

T42.07

- > LED 2x 5-40 W | 2x 15-110 W/VA
- > Double-dimmer to dim two illuminants in a space saving way
- > Available in different versions

EHMANN

LED trailing-edge dimmer

T46.03

- > LED 3-50 W | 15-150 W/VA
- > SILENT TECHNOLOGY
 - Operates utterly quiet
- > Optimization possible in max. area
- > Especially suitable for LED driver

T46.08

- > LED 5-150 W | 15-450 W/VA
- > SILENT TECHNOLOGY
 - Operates utterly quiet
- > Optimization possible in min. and max. area
- > Especially suitable for LED driver

Electronic potentiometer

T73

- > 1-10V signal transmitter
- > Rated power max. 40 mA
- > Switch 10 A
- > Optimization possible in min. area

At a glance: Our LED flush-mounted dimmers

- > Works in rated voltage area of 230V ~ (+/-10%) | 50Hz
- > Optimization for flicker-free dimming of LED lamps possible
- > No stand-by consumption due to real on-/off-switch
- > Rotary dimmer with pressure change over switch
- > Combining the right EHMANN-dimmer with the right LED lamp – simply use our LED recommendation list on our website

Compatible with switch ranges from Busch Jäger, GIRA, Jung etc.

Gira

Berker

Busch-Jäger
